

Directions

This activity is well-suited for lamination for long-term use.

Let your kids move and play while they work on number recognition. All you need are 10 toy cars about the same size as Hot Wheels. Use painters tape to number those cars from 1 to 10, and then ask your kids to park each car in its corresponding parking spot.

All designs were created by Erin P.T. Canning. Thank you for respecting my terms of use.
